

# Sustainable Surfaces and Membranes

A new generation of sustainable, environmentally compatible antimicrobial surfaces and innovative membrane technologies

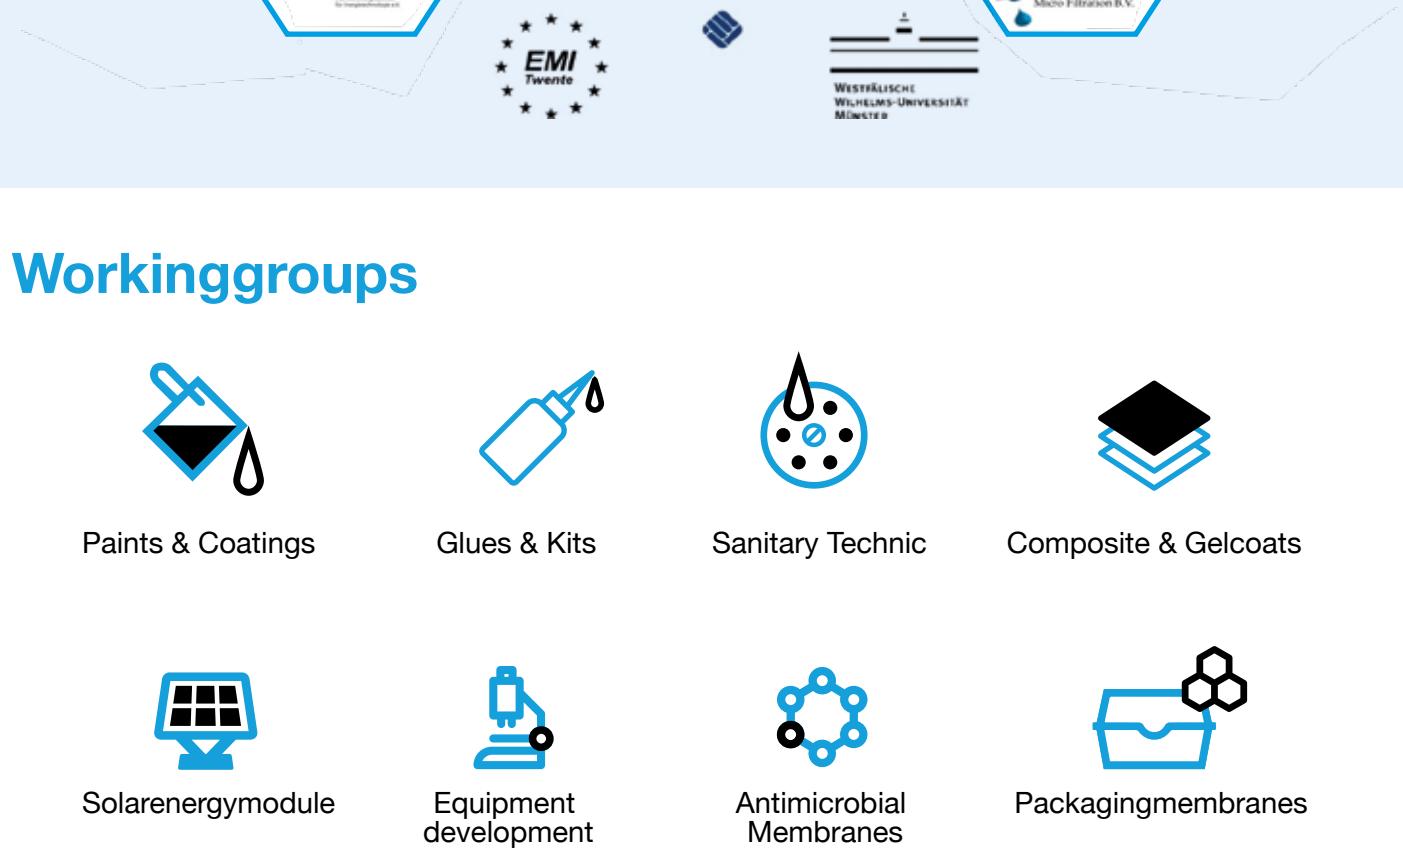

[www.oostnl.nl/nl/showcase/s2m](http://www.oostnl.nl/nl/showcase/s2m)

## Business Development dashboard

The Sustainable Surfaces & Membranes (S<sup>2</sup>M) project focuses on the two key areas of antimicrobial surfaces for various applications ("Antimicrobial") and a wide range of innovative and customized membrane technologies ("Membranes").

## Workinggroups

Paints & Coatings

Glues & Kits

Sanitary Technic

Composite & Gelcoats

Solarenergymodule

Equipment development

Antimicrobial Membranes

Packagingmembranes

Resins and Moulds

Ceramic Membranes

Fuel Cells

Microbiology & Analytics
